■ About the Company

KSS Shipping Services is a distinguished name in the maritime industry, offering comprehensive solutions for ship operations, maintenance, and hull management worldwide.

The company was founded by a senior marine professional with experience in ship technical management services and the technical department of Indian maritime administration.

As an ISO 9001:2015 certified company and approved member of the International Association of Classification Societies (IACS), we specialise in structural assessment, including Ultrasonic Thickness Gauging and Remote Inspection techniques, ensuring the highest standards of safety and compliance for vessels under our care.

Our highly skilled technicians utilize advanced techniques and vast experience to achieve precise and unparalleled results.

For the past twenty years, KSS has established itself as a trustworthy service provider within the shipping sector.

■ Our Services

- UTM as per Class requirements for Statutory/CAP surveys (Class approvals: ABS, BV, CCS, DNV, IRS, KRS, LR, NK, RINA)
- Remote Inspection Techniques for close up survey using CCTV (approved by Class ABS, BV, DNV, IRS, KRS, LR, NK and RINA)
- Drydock Supervision

- Paint coating inspection and condition reports by trained inspectors
- Supervision and verification of steel repairs
